G C
The phone rings its 4 AM
G C
I'm afraid it's you again
G Em F D
Calling with the latest tale of sorrow
G C
Where the hell did my glasses go
G C
I can't see so I don't know
G Em D7 G
The future's here today and gone tomorrow
C Em C
Gone tomorrow - Gone tomorrow
G Em D G
The future's here today - gone tomorrow
Remember not so long ago
We'd spend hours on the phone
The love we knew we could not steal or borrow
Your voice was soft as summer rain
Now it's just a sad refrain
The future's here today and gone tomorrow
Gone tomorrow - Gone tomorrow
The future's here today - gone tomorrow

C D
It felt so right so long ago
G C
Nights were long and days were slow
G Em F D
But now it's time for us to let it go

The phone rings at 4 AM
We both know how this will end
Wasted words and teardrops sure to follow
Where the hell did our love go
Maybe we're not meant to know
The future's here today and gone tomorrow
Gone tomorrow - Gone tomorrow
The future's here today - gone tomorrow
