

# IN THE OCTOBER SKY

Words & Music by Joe LaMay

Unreleased

G C  
Oh the leaves they are falling in the cold wind tonight  
G D  
The angels are calling from the heavens on high  
G C  
A young man lies dying - he breathes his last sigh  
G D G  
A new star is shining in the October sky

He was a dear loving father  
A true self-made man  
He was my youngest brother  
I once held by the hand  
He had the soul of an artist  
And the world in his eyes  
There's a new star shining  
In the October sky

C G  
You know, I once saw a grave stone all weathered with age  
D G  
And the message inscribed there were the words of a sage  
C G  
It said "Death leaves a heartache no one can heal  
D G  
But love leaves a memory no one can steal"

Sometimes I wonder  
Did he feel any pain  
Did it come down like thunder  
Or a warm summer rain  
Were the angels beside him  
As he closed his eyes  
Were they there to guide him  
To the October sky
