While you're traveling to the West

Now and then

You find the time to call and say hello

And tell me where you've been and where you'll go

While you're traveling to the West

This old house can feel so lonely - Whenever you are gone

I know you'll be returning - Still my thoughts can never rest

My heart just keeps on yearning - While you're traveling to the West

I see our friends

Down at the club I'll sing a song or two

And everyone just asks me 'bout you

While you're traveling to the West

I can't pretend

Leaves are falling and the skies are gray

Winds are blowing colder every day

While you're traveling to the West
