

THAT LOVERS TUNE

Words & Music by Joe LaMay

Unreleased

I guess I knew the time would not be long
Before I'd put my thoughts down in a song
'Cause all you had to do was look my way
And my heart was searching for the words to say

Before you came along I'd been undone
I guess I thought my songs had all been sung
And there was nothing new that I could say
'Til you looked at me and stole my heart away

*Here's your song - I hope that it rings true
'Cause every word was written just for you
This heart inside of me wants your love
And tonight you're all that I am thinking of*

I've heard it said that songs are touching hearts
Yours are touching me when we're apart
As the bramble and the rose are so entwined
There's a part of you that comes out in these lines

And I'd just like to thank that summer moon
For shining down upon this lovers' tune
For with its light it brings a comfort too
To know the moon that shines on me shines on you

Chorus
